

# AXON VIRTUAL REALITY TRAINING

## THE PUBLIC SAFETY TRAINING OF TOMORROW

As part of your organization's de-escalation training efforts, virtual reality has almost unlimited potential to help officers better respond to a variety of crisis situations. Shown to increase retention rates, VR lets you create a training environment that heightens senses and introduces stressors that are hard to replicate outside of real-world scenarios. That's why Axon is investing in new VR content tailored to the specific training needs of Public Safety.
