TIME	MONDAY, APRIL 4, 2022
11:45-12:00	<p><b>A Message From Our Sponsor, Versaterm</b>  <b>Policing in 2022: Modern Solutions for Modern Problems</b></p> <p><i>Presenter</i>  Jennifer Schwartz, Account Manager, Versaterm Public Safety</p> <p><i>Description</i>  Versaterm Public Safety is focused on delivering solutions to address the most difficult problems in policing, as told by our customers. With our recent acquisitions, we are proud to provide valuable solutions, such as the ability to enhance community relationships using SPIDR Tech, the ability to efficiently manage large incidents (i.e. protests, active shooters, and mass casualties) using Adashi, the ability to offload call takers using Case Service, and a solution that supports next-generation 911 with Komutel.</p>
12:00-13:30	<p><b>Lunch</b> (<i>Exhibit Area</i>)</p>
13:30-14:30	<p><b>Navigating your organization's transformational change</b></p> <p><i>Presenters</i>  Rob Morrone, Director, Strategic Initiatives, Peel Regional Police Service   Inspector Scott Redstone, Strategic Change Office, Peel Regional Police Service</p> <p><i>Description</i>  We are in an era of unprecedented disruptions. Organizations have to be able to manage uncertainties and be able to pivot quickly and change. True organizational change takes time and real commitment to changing. Adapting the right techniques to make lasting change and building an organization that can change is more critical than ever. An organization that can change, will be able to adapt faster to any uncertainty. Adopting an organizational change mindset and approach is a change in itself and should be treated as such. This presentation will outline change process theory and practice and making a practical case for change within Peel Police.</p>
14:30-14:45	<p><b>A Message From Our Sponsor, Motorola Solutions</b> (<i>Virtual Presentation</i>)  <b>Co-Creating Positive Outcomes With and Through You and the Communities You Serve</b></p> <p><i>Presenter</i>  April Starr, Director of Experience Research, Chief Technology Office</p> <p><i>Description</i>  Over the past number of years, Motorola Solutions has been privileged to have the opportunity to listen to a number of transformational leaders within Canadian policing describe the vision they have created and the actions they have taken in partnership with the communities they serve to co-create Community Safety and Well Being by all</p>

<b>TIME</b>		<b>MONDAY, APRIL 4, 2022</b>	
		and for all, guided by curiosity, humility and a sense of urgency. In this session, we will describe how we are rethinking how we do our work with our policing partners and the communities they serve, inspired by their collective vision and actions and guided by their curiosity, humility and sense of urgency.	
<b>14:45-15:15</b>		<b>Network Break</b> ( <i>Exhibit Area</i> )	
<b>15:15-16:45</b>		<b>Case Study – Operation Trojan Shield</b>  <i>Presenters</i> FBI San Diego Investigative Team  <i>Description</i> From the genesis of the idea to the implementation and coordinated international takedown, this presentation will provide an overview of Operation Trojan Shield. It will also highlight the international partnerships and the coordination that was involved in this successful international law enforcement operation.	
<b>16:45-18:30</b>		<b>Exhibitors Networking Reception</b> ( <i>Exhibit Area</i> )	

<b>TIME</b>		<b>TUESDAY, APRIL 5, 2022</b>	
<b>07:00-13:45</b>		<b>Exhibit Show</b> ( <i>Bayshore Grand Foyer</i> )	
<b>07:00-08:30</b>		<b>Continental Breakfast</b> ( <i>Exhibit Area</i> )

<b>08:30-08:35</b>		<b>Opening Remarks</b>	
<b>08:35-08:45</b>		<b>How will you and your police agency become more equitable, diverse and inclusive?</b>  <i>Presenter</i> Deputy Chief Michelle Davey, M.O.M., Delta Police Department; Co-Chair, CACP Equity, Diversity and Inclusion Committee  <i>Description</i> Tune into this session where you will hear about two upcoming in-person CACP conferences, exploring a range of topics in the EDI space. From inclusive leadership to employee wellness for the future, these are two conferences you will not want to miss!	

**TIME****TUESDAY, APRIL 5, 2022**

<b>08:45-10:15</b>	<p><b>Recognizing the threat from within: Case studies and recommendations to mitigate the risk from the “Insider” <i>(Virtual Presentation)</i></b></p> <p><b>Presenter</b> Robert Pitcher, Manager, Cyber Engagement team, Critical Infrastructure Directorate of Public Safety Canada</p> <p><b>Description</b> Public Safety Canada will review <a href="#">Enhancing Canada’s Critical Infrastructure Resilience to Insider Risk</a> publication via an informative presentation tied to real world examples. Participants will walk away from the session with a broad understanding of what an insider risk could be and take that knowledge forward into their own situational awareness within their organizations to elevate and improve their own security postures. Security in silos is not the way to do business. Through talks such as this, we will attempt to bridge the physical and cyber gaps in the domain so that custodians of both can understand the complexities of the other and see how they can work together.</p>
<b>10:15-10:30</b>	<p><b>A Message From Our Sponsor, Homewood Health</b> <b>Homewood Touchpoint – A Systematic Approach to Measurement-Based Care</b></p> <p><b>Presenter</b> Cassandra Sampson, AVP National Treatment Partnerships</p> <p><b>Description</b> Measurement-based care has been part of clinical care programs for many years and includes many benefits: enhanced care, quality improvement and a foundation for quality improvement and research. As Homewood Health underwent a review and implementation of a systematic approach to measurement-based we looked to technology as a means to increase functionality and reactivity to such an approach: what we learned and what comes next.</p>
<b>10:30-11:00</b>	<b>Network Break <i>(Exhibit Area)</i></b>
<b>11:00-12:00</b>	<p><b>When Emergent Technology Outpaces Policy &amp; Legislation <i>(Virtual Presentation)</i></b></p> <p><b>Presenter</b> Christian P. Quinn, Major (Ret.), Cyber &amp; Forensics Bureau Commander, Fairfax County (VA) Police Department; Founder, Fulcrum Innovation LLC, Washington DC; Master of Forensic Sciences, George Washington University; FBI National Academy, Session #272, Quantico, Virginia</p> <p><b>Description</b> Emergent technology, such as artificial intelligence has the potential to be particularly valuable as policing democratic societies becomes increasingly more complex. This presentation will highlight technology solutions currently in use by law enforcement, and other emergent solutions that offer potential promise. The discussion will focus</p>

TIME	TUESDAY, APRIL 5, 2022
	<p>on key themes prevalent throughout North America and the U.K. regarding the challenges of balancing operational advantages with community concerns for privacy and the preservation of human rights when governance is ambiguous or otherwise subject to interpretation.</p>
<p><b>12:00-12:15</b></p>	<p><b>A Message From Our Sponsor, Chainalysis</b>  <b>Cryptocurrency Crime: Law Enforcement Best Practices to Disrupt Illicit Activity</b></p> <p><i>Presenters</i>            Jeff Adam, Consultant</p> <p>Peter Patterson, Director, Canada</p> <p><i>Description</i>            Criminals of all types are turning to blockchains to launder funds gained through illicit activity. In 2021, over \$15.8 trillion exchanged hands on the blockchain and the criminal share totaled around \$14 billion in transaction volume. Individuals and transnational criminal organizations are leveraging cryptocurrency to smuggle narcotics, engage in money laundering, transport illicit goods, and facilitate human trafficking, but their activity leaves a trail of data for investigators to follow and actionable intelligence opportunities to exploit. The public blockchain keeps an immutable record of all these transactions —it just needs to be read the right way.</p> <p>This presentation will outline how blockchain analysis tools link cryptocurrency transactions to real-world entities, enabling law enforcement agencies to map criminal financial networks, track bad actors and enable the seizure of funds.</p>
<p><b>12:15-13:45</b></p>	<p><b>Lunch</b> (<i>Exhibit Area</i>)</p>
<p><b>13:45-15:15</b></p>	<p><b>US Capitol Riot Data: Leveraging Partnerships and Technology to Advance Investigations</b></p> <p><i>Presenters</i>            FBI Washington Field Office Investigative Team</p>
<p><b>15:15</b></p>	<p><b>Closing Remarks</b></p>
